

Aschaffenburg University of Applied Sciences

Summer semester 2026

TH Aschaffenburg
university of applied sciences

Link to this presentation

Practical | Personal | Forward-looking

Excellence

Top positions in university rankings

Team-oriented

Personal attention to students by professors

Diverse

25 Bachelor's degree programmes,
8 Master's degree programmes from 3 faculties
as well as the iDok doctoral programme

Strong in research

High level of third-party funding
for more than 50 laboratories and 8 institutes

International

Over 100 partner universities, short and long-term stays abroad

Practical | Personal | Forward-looking

Practice-oriented

Practical semesters, exercises and internships

Work-related

Dual and part-time study programmes and models

Career-enhancing

Further education programmes for students, employees and lecturers, Campus Careers and iDok Doctoral Programme

Networked

Lively knowledge and technology transfer with companies

Forward-looking

Fit for the future

Facts and figures

33

Study programmes
in 3 faculties

126

Professors

70 €

Student union fee
per semester
(additional tuition fees apply for
part-time degree programmes)

4,000

Students

Employees

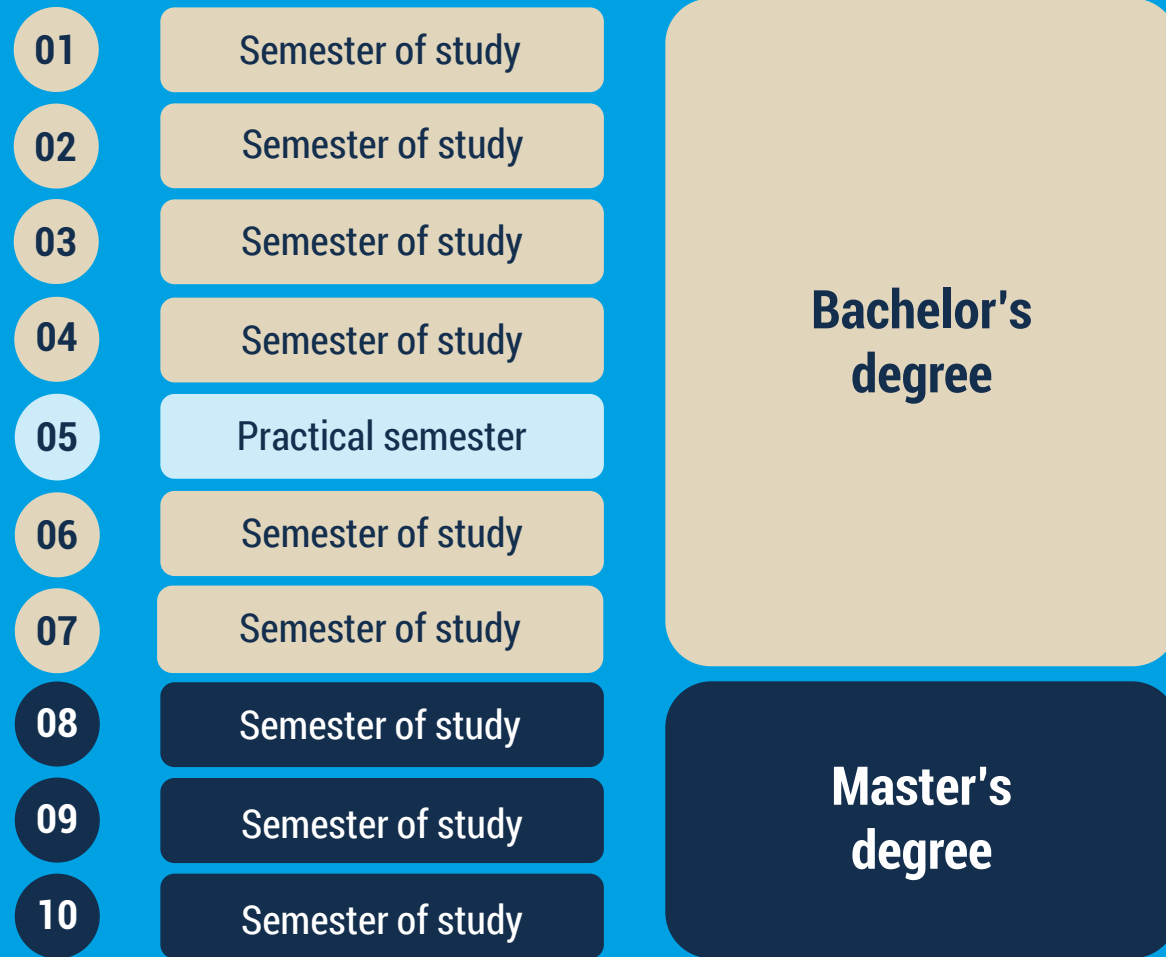

5.6 Mio. €

Research-related third-
party funding in 2025

Your path at Aschaffenburg UAS

An example of a study programme

Types of courses

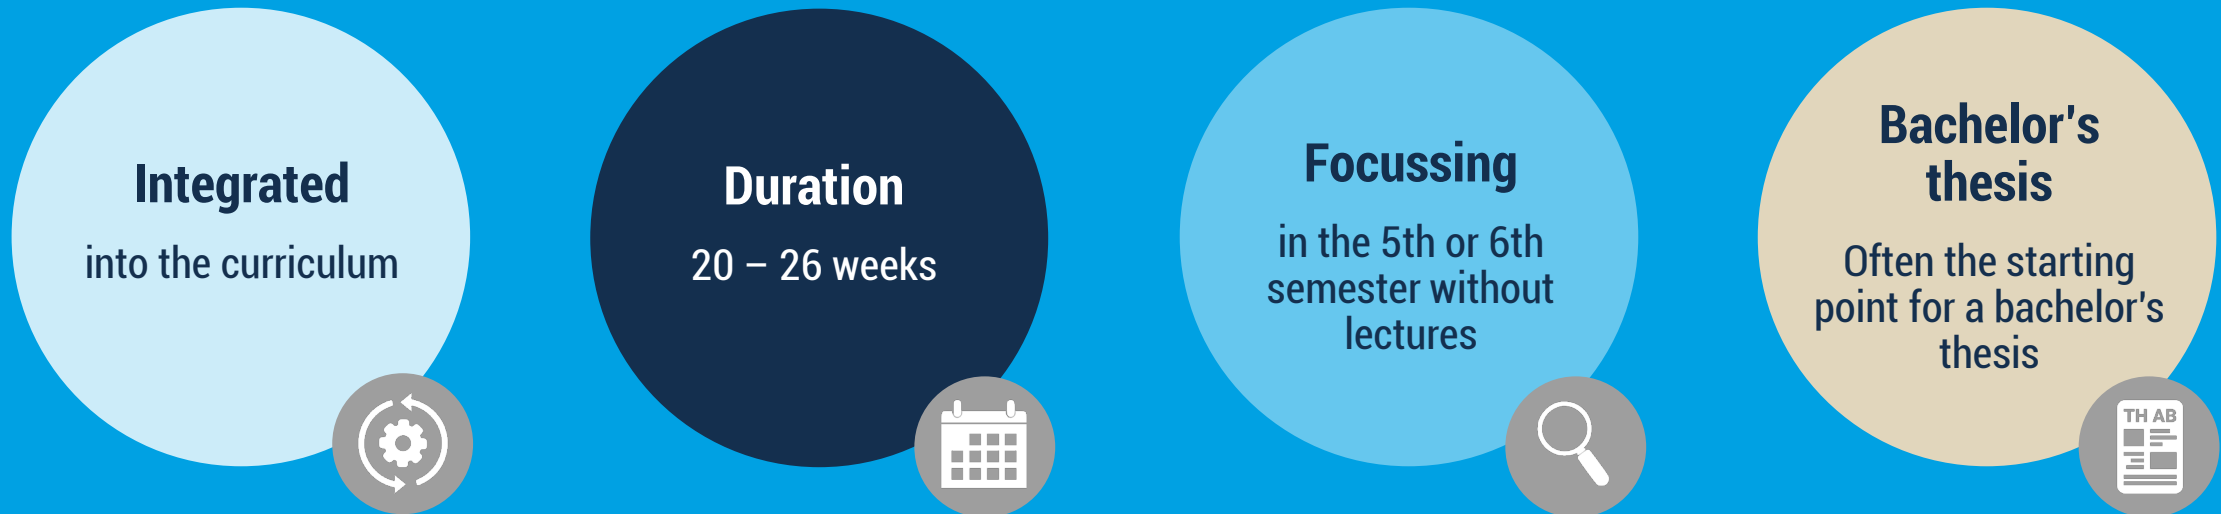

- Seminar-based teaching
- Exercises
- Internship
- Seminar
- Blended learning (on-site and e-learning)

Module study

- Participation in individual modules in the Bachelor's or Master's degree programme
- Duration of study 1 or 2 semesters
- Completion with certificate
- Credit towards a standard degree programme

Practical semester in a company

Gain your first work experience

Doctorate

Own right to award doctorates in cooperation with THWS and Coburg University as of 2023

iDok

Interdisciplinary
doctoral programme

Doctoral centre NISys

Sustainable and
intelligent systems

Co-operative doctorate

Individual doctoral support

- Comprehensive personal, professional, and organisational support
- Practical research within a dynamic corporate network
- Access to outstanding research infrastructure
- Opportunity to join topic-specific research networks

Practical research during studies and doctorate

Shaping the future through applied research

**Intelligent
systems**

**Knowledge
management**

Materials

Practical research during studies and doctorate

Aschaffenburg UAS is one of the technical universities in Bavaria and Germany which is particularly strong in research.

More than 50 challenging, consistently practice-oriented research projects enable our students to deepen their knowledge of course content:

- Student research projects
- Assistant positions
- Bachelor's and Master's theses
- Research Master's degree programmes
- Employment opportunities
- Doctoral program at the NISys Doctoral Center or in cooperation with a partner university
- Individual support through the interdisciplinary doctoral program iDok

Our degree programmes

**Faculty of
Health and Social Work**

**Faculty of
Engineering and
Computer Science**

**Faculty of
Business and Law**

Faculty of Health and Social Work

Bachelor's degree programmes

- Midwifery B.Sc.
- Physician Assistant B.Sc.
- Interdisciplinary Health Care B.Sc.
- Social Work B.A.

Module study programme

- Adaptation course for migrant midwives

Faculty of Health and Social Work

Special features of our degree programmes in the health sector

Midwifery B.Sc.

Dual study programme,
high practical component,
training in the SkillsLab

Physician Assistant B.Sc.

Full-time studies with
internships every semester,
training in the SkillsLab

Interdisciplinary Health Care B.Sc.

Part-time degree programme
for healthcare professions

Faculty of Health and Social

Social Work B.A.

Full-time study

7 semesters, 210 ECTS,
practical semester

In-depth practice

Study with paid
employment possible
during lecture-free periods

Qualification

Qualification as a social
worker, diverse career
opportunities

Faculty of Engineering and Computer Science

Bachelor's degree programmes

- Applied Materials Science B.Sc.
(previously Modern Materials)
- Electrical Engineering and Information Technology B.Eng.
- Renewable Energies and Energy Management B.Eng.
- International Technical Sales Management B.Eng.
- Mechatronics B.Eng.
- Medical Engineering and Data Science B.Sc.
- Multimedia Communication and Documentation B.Sc.
- Software Design B.Sc.
- Software Design International B.Sc.
- Business Informatics B.Sc. (New from winter semester 2026/2027)
- Industrial Engineering and Management B.Eng.

All Bachelor's degree programmes also available as **study programmes with in-depth work experience!**

Fakultät Ingenieurwissenschaften und Informatik

Bachelor's degree programmes part-time

- Electrical Engineering and Information Technology B.Eng.
- Industrial Engineering B.Eng.

Bachelor's degree programmes dual

with partner companies

- Electrical Engineering and Information Technology B.Eng.
- Mechatronics B.Eng.

Faculty of Engineering and Computer Science

Software Design International (in English)

Practical

Hands-on learning!
Gain valuable
practical experience
during your studies.

Future-proof

Choose your path -
shape your future!

Intercultural

Come together with people
from all over the world!
Personal contact is the
hallmark of collaboration.

Faculty of Engineering and Computer Science

Electrical and Information Technology B.Eng. dual and Mechatronics B.Eng. dual

Aschaffenburg UAS dual studies

Practice-oriented from day
one of your studies

Dual study core concept

Allows you to quickly gain
practical experience in the
company

Two places of learning:
Aschaffenburg UAS and co-
operating companies

**After your studies,
you have a good
chance of a direct
entry**

into your career with the
co-operating company

Faculty of Engineering and Computer Science

Master's degree programmes

- Electrical Engineering and Information Technology M.Eng.
- Industrial Engineering M.Sc.
- Applied research in the engineering sciences M.Sc.
with the specialisations:
 - Applied computer science
 - Digital Medical Technology
 - Electrical Engineering and Information Technology
 - Renewable Energies
 - Materials Science
 - Mechatronics

Study specialisations

- Drive Technology and Robotics
- Applications of Microelectronics
- Applied Modern Materials
- Computational Engineering and Simulation
- Data Science
- Digital Medical Technology
- Digital Transformation
- Vehicle Mechatronics
- Information and Automation Technology
- International Sales Management
- Construction and Development
- Logistics
- Microelectronic Systems and Design
- Microsystems Technology
- Production Technology
- Urban Energy Systems

Faculty of Business and Law

Bachelor's degree programmes

- Business Administration B.A.
- Business Administration and Law B.A./LL.B.
- Digital Real Estate Management B.A.
- Digital Marketing and E-Commerce B.A. *
- International Real Estate Management B.A.
- SME Management B.A. *
- Business Psychology B.Sc.

All Bachelor's degree programmes also available as study programmes with in-depth work experience!

Faculty of Business and Law

Master's degree programmes

- Real Estate Management M.A.
- International Management M.A.
with the specialisations:
 - Finance and Accounting
 - Marketing and HRM
- Human Resources Management M.A.
(New since summer semester 2026)
- Business and Law LL.M./M.A./M.Sc.
with the specialisations:
 - Accounting, Auditiong, Controlling, Tacation
 - Finance
 - Business Law
- Business Psychology M.Sc.

Study specialization from the subject areas

- Compliance Management
- Digital Business Models, Sustainable Value Chains
- Finance, Controlling, Accounting, Taxes
- From Data to Decision
- Real Estate, Smart City
- International Management
- Marketing, Market Psychology
- Brand Management and Law
- Personnel Psychology, Human Resources Management
- Process and Quality Management
- and various topics

Faculty of Business and Law

Modular programmes

(Possibility of transferring credits to a Bachelor's or Master's degree programme)

- SME Management *
- Asset Management

Miltenberg Campus

Small campus – Big successes!

Flexible

Manage your self-study time and complete digital learning packages anytime, anywhere

Practice-oriented

We combine theory with practice through many projects and field trips to companies

Study on a state-of-the-art campus

in the centre of the vibrant Miltenberg region.

Co-operative study models

Study programme with in-depth practical experience

- Up to 54 weeks in the company
Paid employment during your studies
- Practical experience during the lecture-free time
- Bachelor's thesis in the company

Joint study programme

Integrated vocational training, e.g. with IHK/HWK qualification in a company

Bachelor's degree programmes currently available:

- **Business Administration and Business Administration and Law** with training as a banker graduate or with training as a tax clerk
- **Software Design** with training as an IT specialist for application development in companies of the Initiative for Information Technology (IfI):
<https://www.informatik-aschaffenburg.de/software-design-studium>

Dual study programme with partner company

Mechatronics B.Eng., Electrical and Information Technology B.Eng.

Hybrid learning concept

Classroom and online lectures, blended learning

Compact

Bachelor's degree after 6 semesters

Financing

of the study programme by means of training allowance

Two places of learning:

at AUAS and in the company

Part-time study programme

Electrical Engineering and Information Technology B.Eng. and Industrial Engineering B.Eng.

For experienced professionals

Professional experience is a prerequisite for admission

Alongside your job

Students stay in employment

Blended learning

80 % self-study
20 % presence
(approx. 2 days / month)

Proven concept

Over 10 years of experience with working students

From Aschaffenburg into the whole world

More than 65 ERASMUS+ partner universities

More than 60 international partner universities

Status: March 2026

Our international
partner universities

What our students and doctoral students say

Unique in Germany
SME Management B.A.

The enthusiasm of the professors is contagious
Business Psychology B.Sc.

From craftsmanship to science
Midwifery B.Sc.

Good degree programme with prospects for the future
International Management M.A.

Mixture of many subject areas
Applied Materials Science B.Sc.

International opportunities
International Technical Sales Management B.Eng.

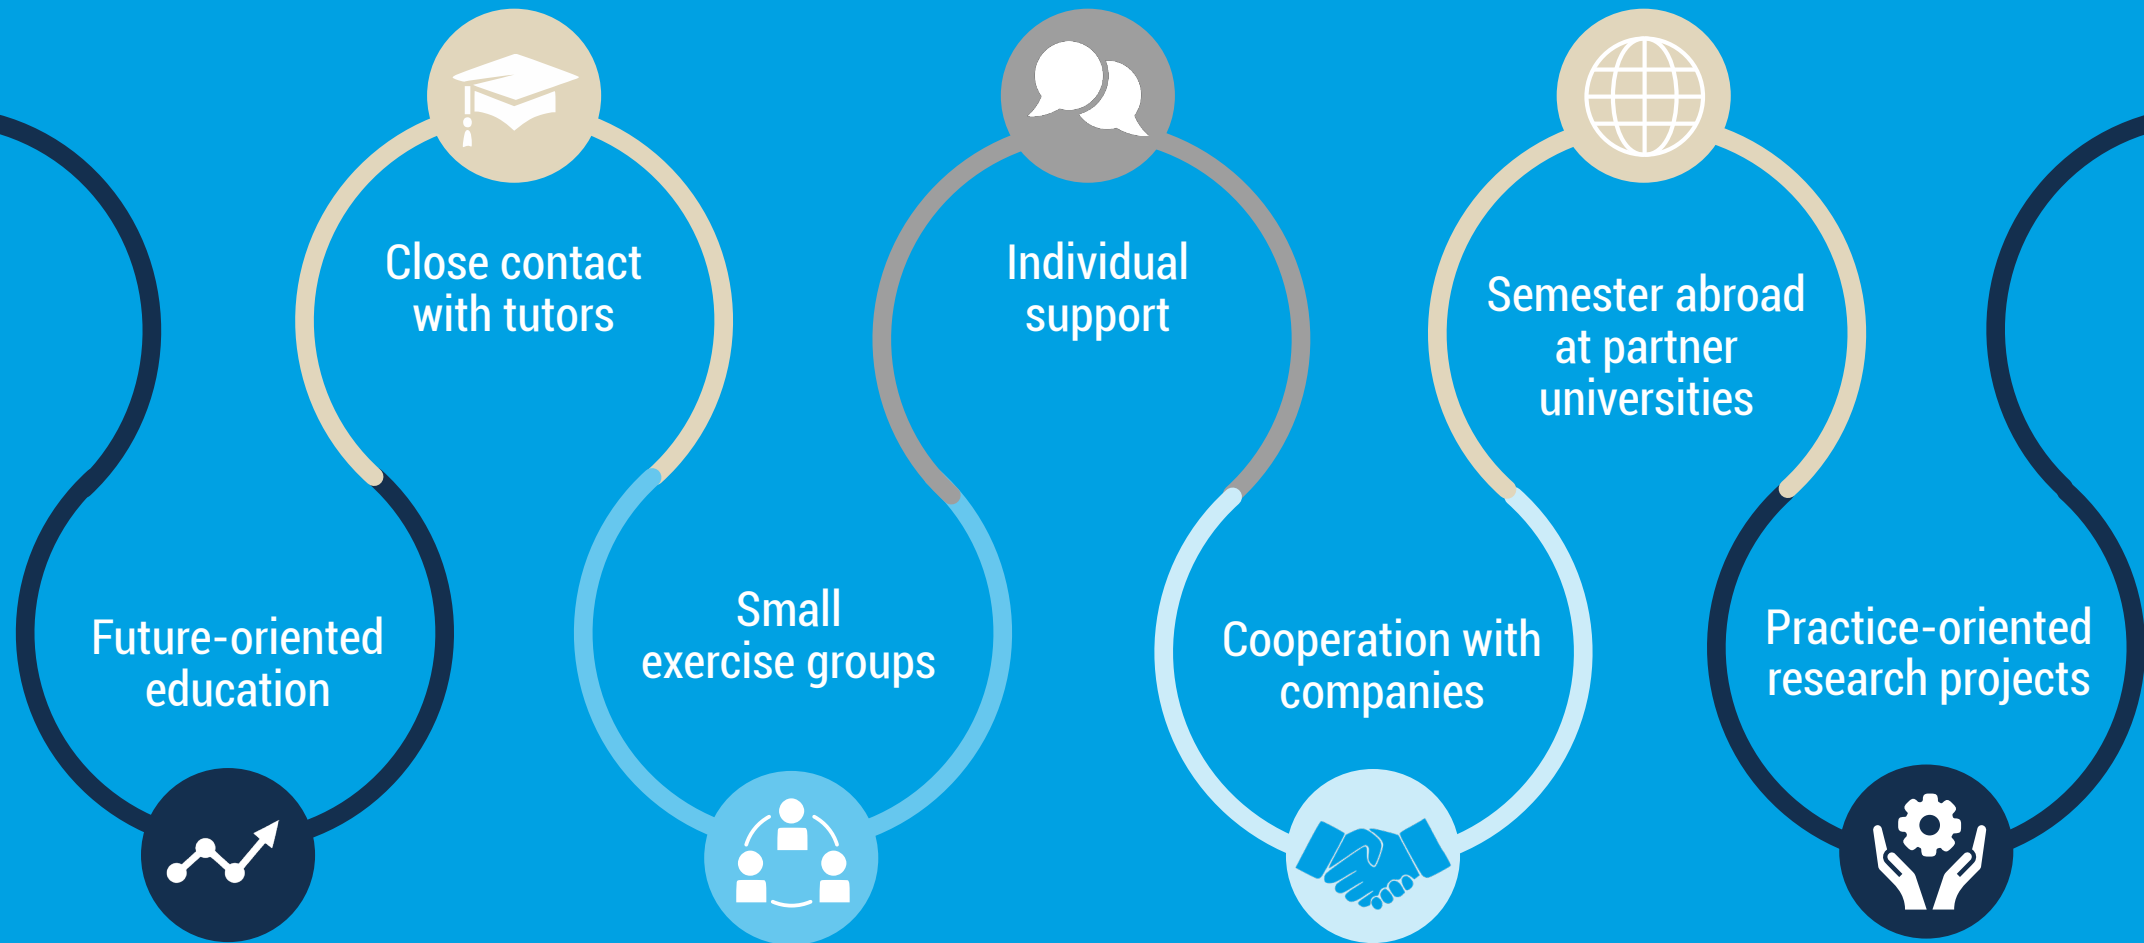

Having completed my doctorate, I can look back on an exciting and challenging time. I was able to deepen my specialist knowledge and also strengthen my personal and intercultural skills, for example by participating in international conferences.

Doctorate

Study situation

Good reasons for studying at Aschaffenburg UAS
