Erasmus Blended Intensive Programme – campus of the future

24 – 28 September 2022 on site

By attending the Blended Intensive Programme, you will be able as to how to combine ...

- Earn up to 3 ECTS in a total of five days.
- Improve your intercultural skills and knowledge on sustainability with regards to co-creating your campus of the future with an international community of fellow students and friends.
- Apply your knowledge and ideas to help build the campus of the future.
- Network with fellow-students from different European and non-European countries.
- Immerse yourself and enjoy an attractive teaching programme and site visits including outings into the beautiful surrounding forests and a day trip to Heidelberg which forms an integral part of our programme. Students can also benefit from their visit to Aschaffenburg by visiting the Oktoberfest in Munich (just 3 h by train) before or after our Blended Intensive Programme.
- For students of TH AB have the ECTS additional be recognised for the new certificate **BW and BWR International**.

Take your chance and apply for the intensive programme “Campus of the Future” at Aschaffenburg University of Applied Sciences. This intensive international programme held in English seeks to address in particular bachelor students interested in the topic of sustainability and building the campus of the future while being passionate about making friends from different places in Europe and beyond when collaborating in international student teams. There will be a preparatory and a post-assignment online.

The Blended Intensive Programme “Your campus of the future” is supported by funds for the new ERASMUS+ Blended Intensive Programmes (BIPs). It will be conducted and seeks to make a contribution to the Green Deal of the EU and the Sustainable Development Goals (SDG)s.

In this BIP we will be exploring as to how to combine circular economy principles, design thinking and systems thinking in order to foster new ideas and solutions that re-imagine a university campus as ecologically sustainable highly liveable and resilient ecosystem.

Be sure to send your letter of motivation (1 page, Arial 11p, 1,5 spacing) specifying your reasons for taking part in this Blended Intensive Programme to the International Office.
